Re: Ex Parte Communications in ET Docket 92-100

Dear Ms. Searcy:

This is to inform the Commission that on Thursday, April 22, 1993, Messrs. Jeff Binckes (COMSAT Mobile Communications), Ray Crowell (COMSAT World Systems), and Ben Pontano (COMSAT Labs) of Communications Satellite Corporation (COMSAT) met with the following FCC personnel: Mr. Tom Tycz and Ms. Cecily Holiday (Common Carrier Bureau); Messrs. Ray La Forge and Bruce Franco (Office of Engineering and Technology); Messrs. John Williams and David Reed (office of Plans and Policies); and Mr. Rudolfo Baca (Office of International Communications).

The meeting took place at the invitation of the Commission's staff to discuss issues being considered in the rulemaking proceeding on Personal Communications Services (PCS) in ET Docket No. 92-100. The discussion dealt, in general terms, with issues relating to the future satellite use of the 2 GHz band, the role of satellites in the marketplace for PCS-type services, and COMSAT's views on satellite-based PCS services.

Respectfully submitted,
